Number of quarantined people discharged	82 926
Number of people in quarantines	259

9. **Key message**

• It is noted that the number of new infections almost doubled during the last twenty-four hours reporting cycle from 554 to 1 041. During the second wave in 2020, the number peaked at 683 on the 13 December 2021. It remains in our power to change the course of the trajectory by practicing the basic public health measures.
