FOREWORD

Tourism sector is one of the fastest growing industry in Namibia considering its contribution towards the Gross Domestic Product (GDP), hence it has been identified as a strategic sector in the National Development Plans with promise for growth and job creation by the Government.

In order for the Namibian tourism sector to continue growing, developing and to be sustainable yet competitive, it is imperative for the Government and its stakeholders to have up-to-date, reliable, and comprehensive information on travellers to Namibia. The Ministry is task to compile Annual Tourist Statistical Report. These reports aim to shed light on the characteristic tourist arrivals such as nationality, length of stay, purpose of visit and mode of travel, and key source markets.

The 2019 tourist statistical report highlight a slight increase of 1.3% of 1,681,336 foreign travelers to Namibia as compared to the previous year (2018). The tourist arrivals increased with a 2.5% from 1,557,279 in 2018 to 1,595,973 in 2019.

Base on the analyses Namibia needs to keep up the momentum for further development of tourism, to move away from seasonal destination into an all-year destination. Therefore its advisable for all stakeholders to increase their efforts towards making Namibia a preferable destination.

Therefore it is my honour to officially present the 2019 Annual Tourist Statistical Report.

A handwritten signature in black ink, consisting of a stylized 'P' followed by a horizontal line.

Hon. Pohamba Shifeta (MP)
Minister of Environment, Forestry and Tourism

ACKNOWLEDGEMENT

The Ministry acknowledge with appreciation the contribution made by many stakeholders. This report was made possible by the data collected from the Ministry of Home Affairs, Immigration, Safety and Security; we thank the custodian for their continues support. On behalf of the Ministry, we would like to thank the Namibia Tourism Board (NTB), Air Namibia and all other stakeholders for their unwavering support and collaboration toward to the compilation of this report.

INTRODUCTION

Objectives

The tourist statistical report depicts the flow of tourist arrivals in Namibia per annum.

The main objective of this report is to provide up to date statistics to all tourism stakeholders. These statistics are relevant for planning, budgeting and evaluation of tourism programmes and projects as well as for the general purposes. The key users of tourism statistics include the Government of the Republic of Namibia (GRN), the Namibia Tourism Board (NTB), Namibia Statistics Agency (NSA), the Bank of Namibia (BoN), and National Planning Commission (NPC), Federation of Namibia Tourism Association (FENATA), research institutions, NGOs, donors, universities and the general public.

Report sections

The first section of this report contains comprehensive statistics presented in graphic formats that include foreign arrivals profile; tourist arrivals profile; tourists arrivals by region, purpose of visit, intended length of stay, gender, age group, point of entry, mode of travel and seasonality of travel.

The second part is an Annexure containing detailed statistical tables covering information on tourist profiles.

Key Concepts and Definitions

Foreign Tourist

A foreign tourist is defined as “any visitor travelling to a country other than that of his/ her residence but outside his/ her usual environment for more than 1 night but less than 12 months and whose main purpose of visit is other than the exercise of an activity remunerated from within the place visited”. This is the United Nation World Tourism Organisation (UNWTO) definition used to identify who is a foreign tourist visiting Namibia.

Country of Residence

The country of residence is one of the key criteria for determining whether a person arriving in a country is a “visitor” or “other traveller”, and if a “visitor” whether he/she is a national or overseas resident. The underlying concept in the classification of international visitors by place of origin is the country of residence, not their nationality. Foreign nationals residing in a country are assimilated with other resident for the purpose of domestic and outbound tourism statistics.

Purpose of Visit

The main purpose of a tourism trip to a country (or place) is defined as “the purpose in the absence of which the trip would not have taken place”. It is determined by the main activities in which the visitors has been or will be involved during the trip at destination. The main purpose of the visit for the tourists are classified into four categories, which are: Visiting Friends/Relatives, Holiday, Business, and Other (those reason that did not fall under the other three categories).

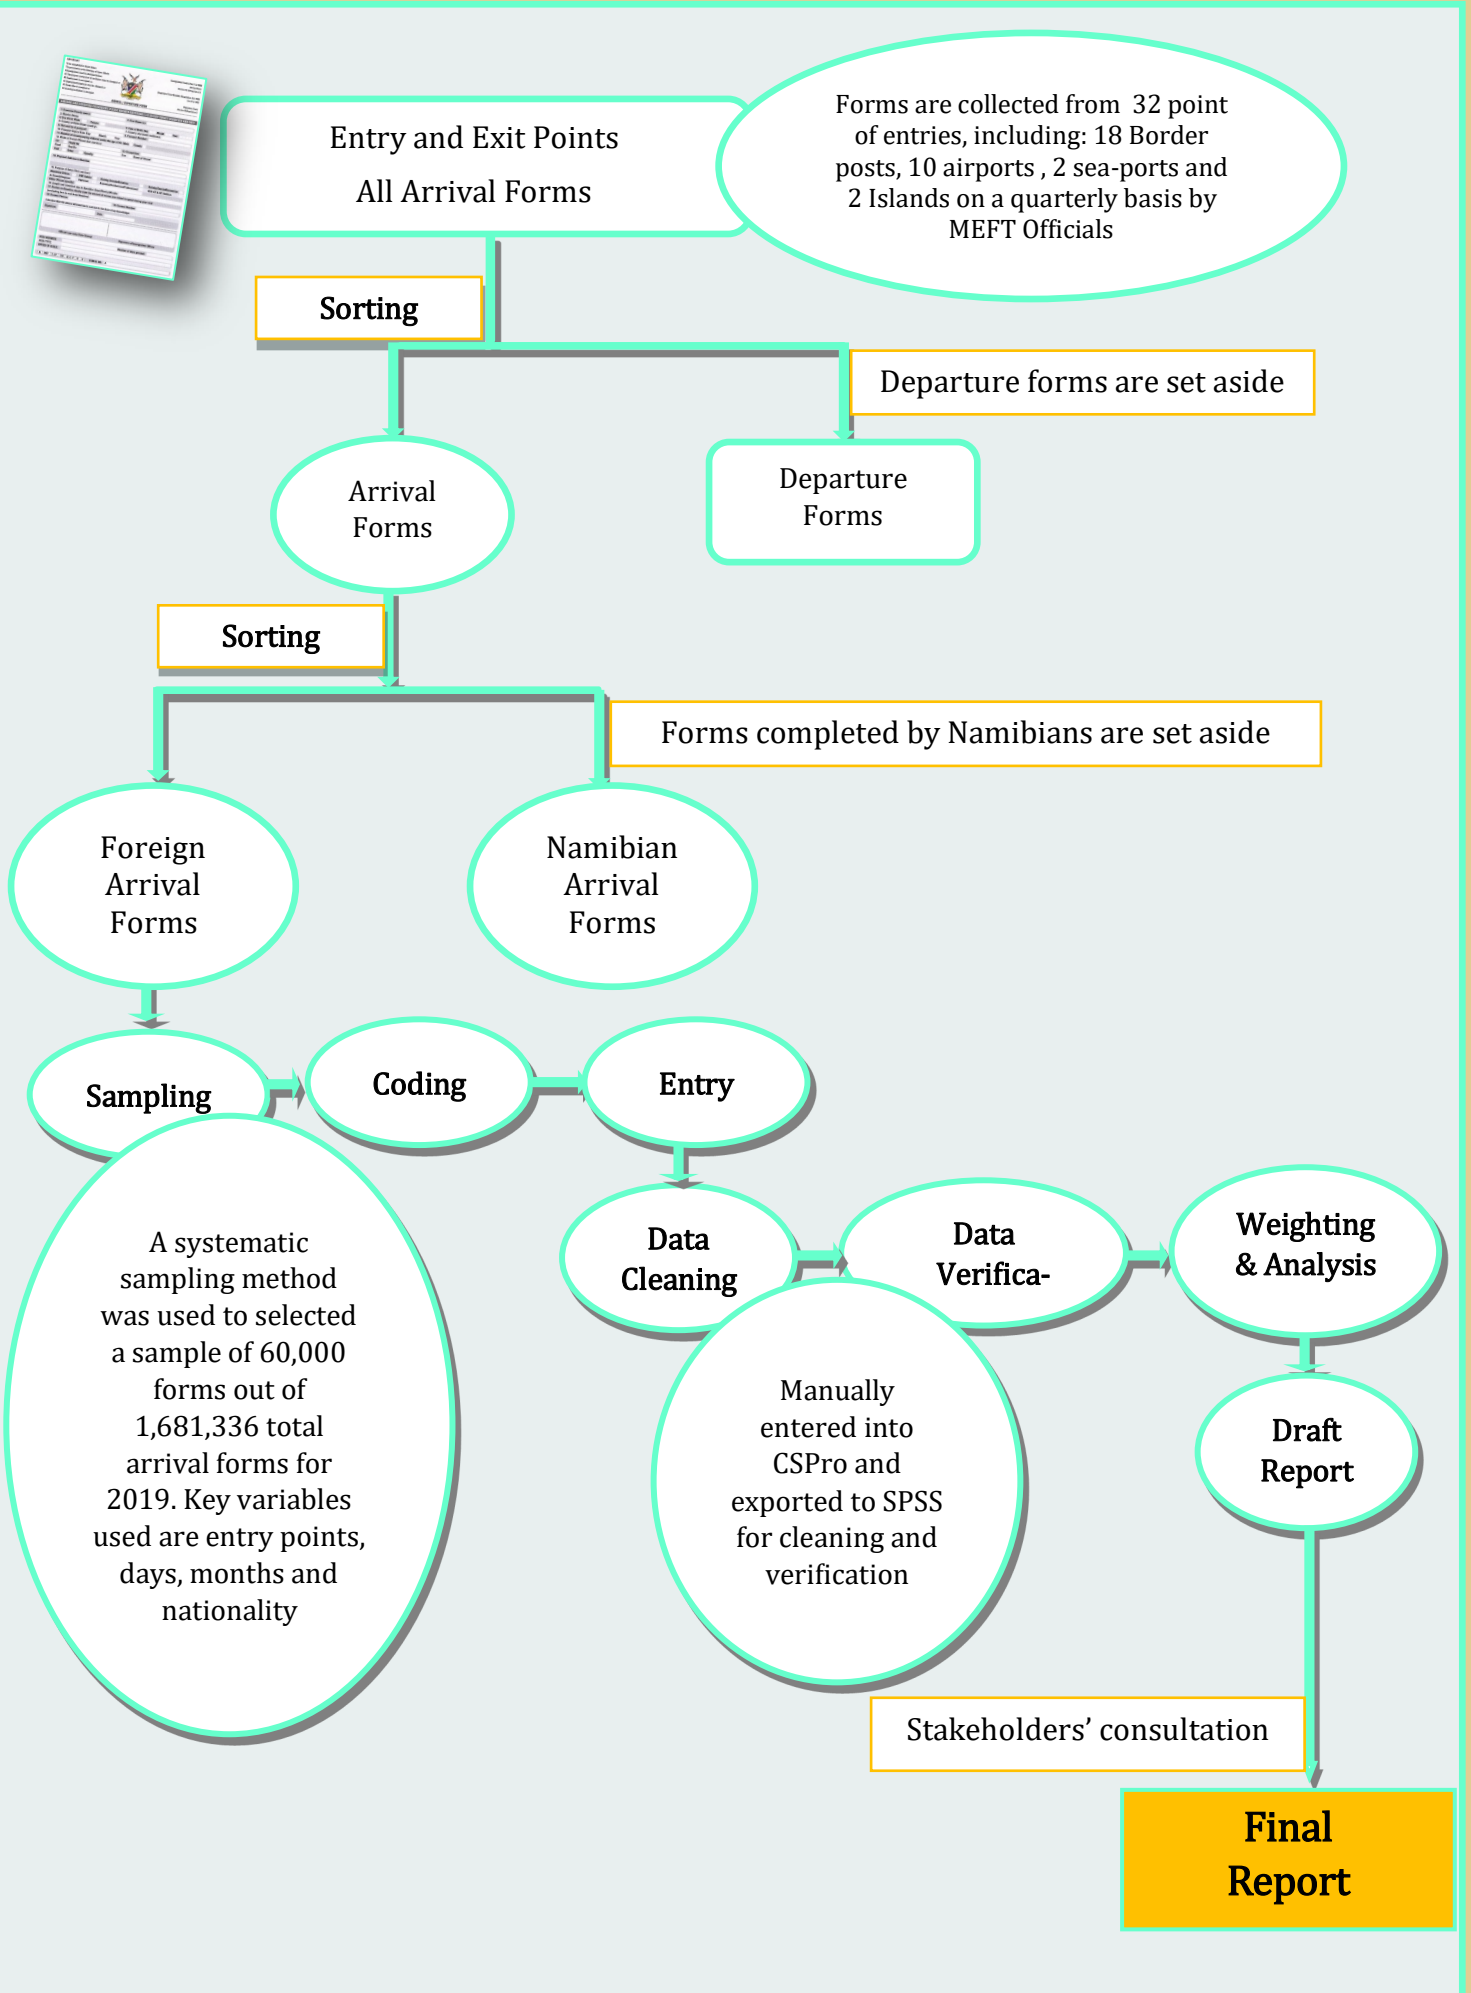

The above definitions and classifications were applied in this study and, being internationally accepted, will allow for global comparison of Namibia's tourism statistics.

METHODOLOGY

FOREIGN ARRIVALS PROFILE

In 2019, a total of 1,681,336 foreign travelers visited Namibia as compared to a total of 1,659,762 in 2018, which represents a 1.3% increase over the period. The foreign arrivals category was made up of 94.9% tourists, 3.3% same-day visitors, 1.4% returning residents and others 0.4%. Apart from the slight increase recorded in 2019, the average growth over the last four years (2015 to 2018) has been modest below 4%. The slow growth may be attributed to various global factors such as world financial crisis and due to limited marketing efforts. This could be attributed to fact that source markets had reached their peak that leave NTB to venture into new potential markets such as the Asia, Australia and Middle Eastern markets.

Over the years, the foreign arrivals figure had been dominated by travelers from Angola mainly seeking medical, shopping and visiting family and friends (VFR). In 2019, 36.1 % of Angolan travelers made up the total figure of foreign arrivals into Namibia. While travelers from Brazil and Russia recorded the lowest, amounting to 0.2% and 0.3% respectively.

Figure 1: Foreign arrivals by Years, 2014 - 2019

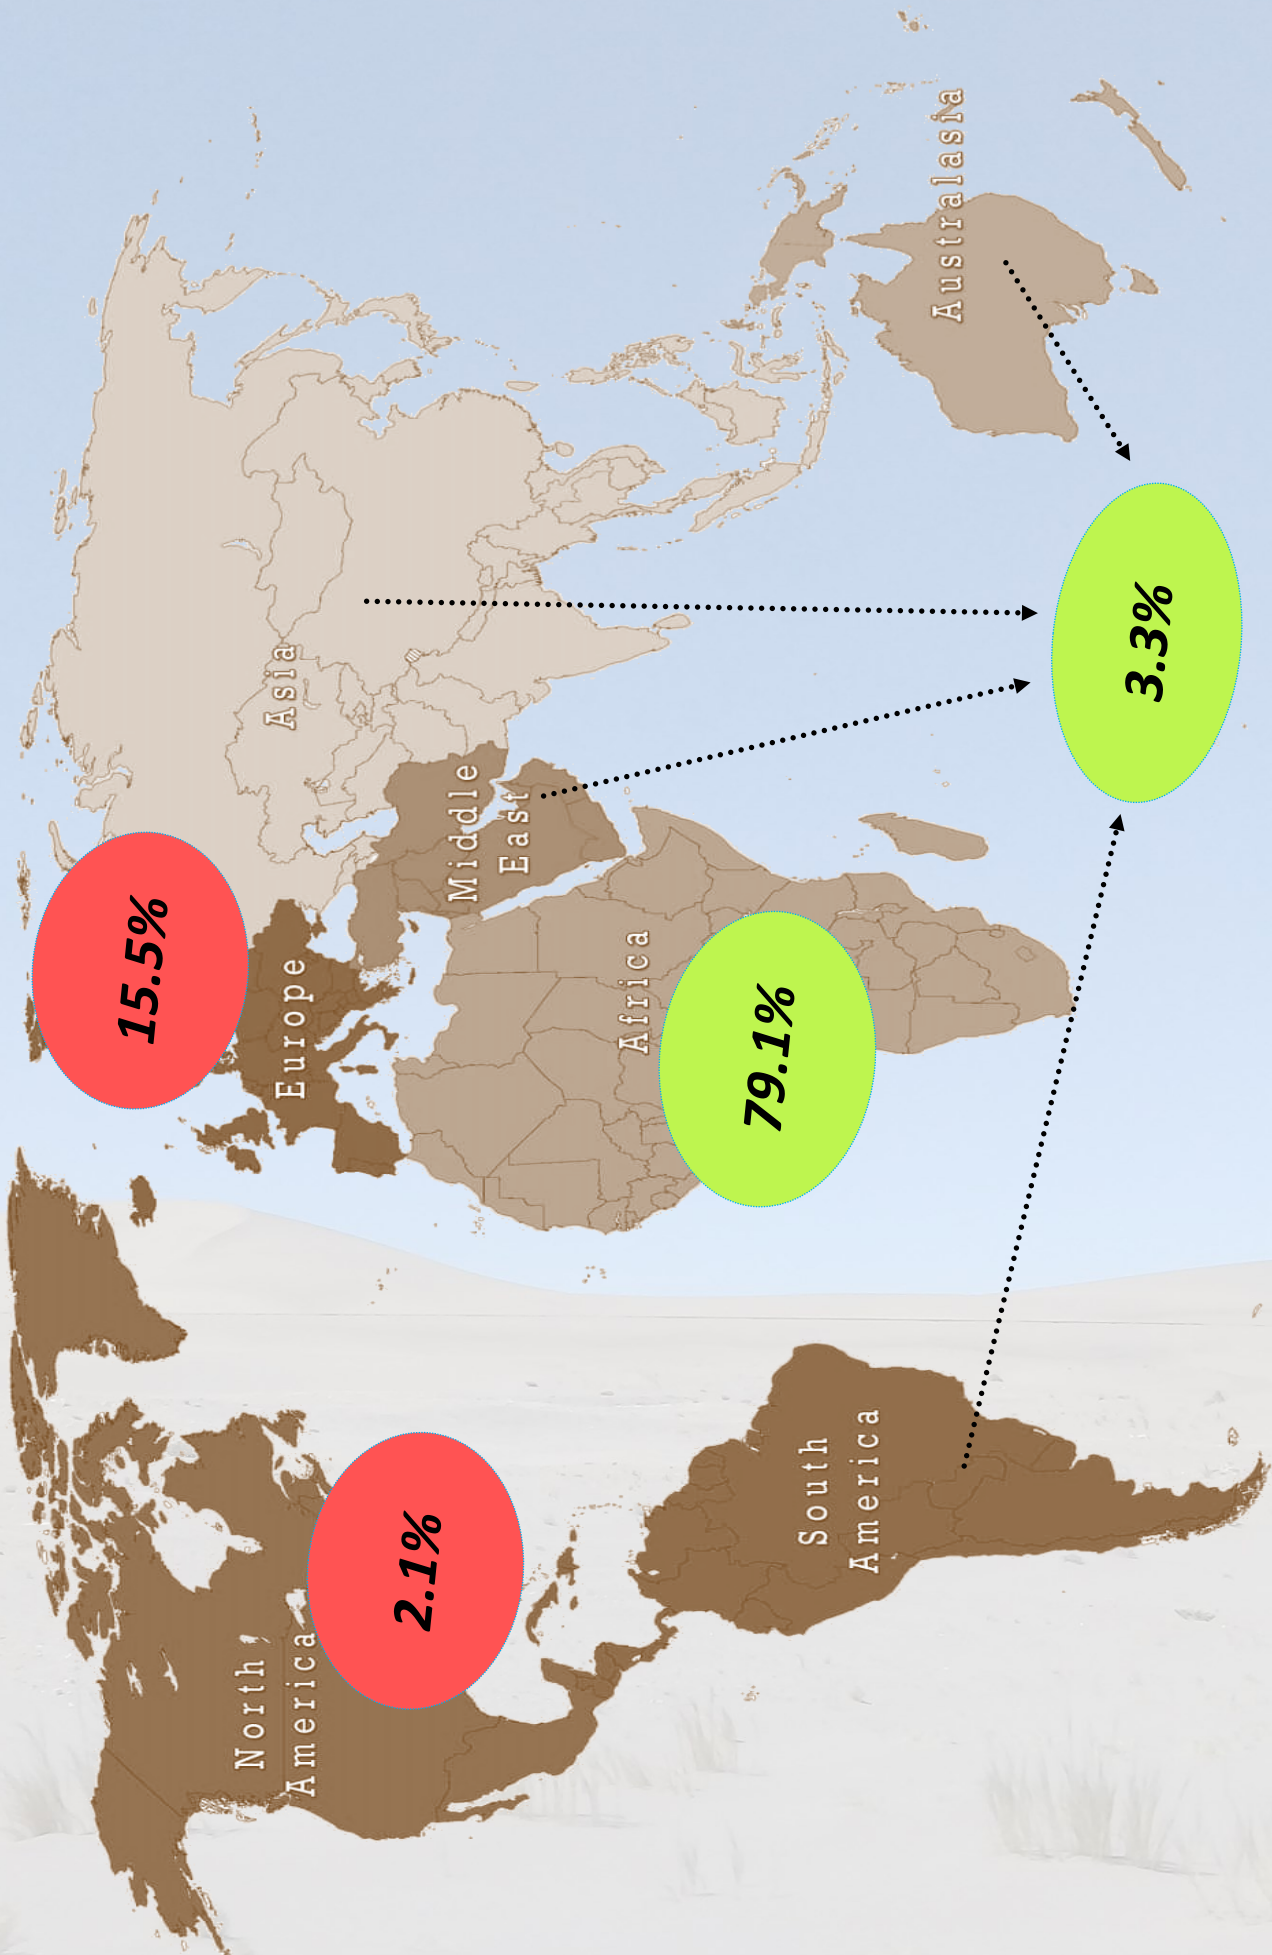

Figure 2: Foreign arrivals by category, 2018 - 2019

WHO VISITED NAMIBIA IN 2019

TOURIST ARRIVALS PROFILE

The tourist arrivals recorded a slight increase of 2.5% from 1,557,279 in 2018 to 1,595,973 in 2019. Figure 4 indicate the peak of 12.2% in 2014 which is a result of the significant marketing efforts achieved during the Adventure World Travel Summit (AWTS). Thereafter there is a significant decline which is due to marketing budget reduction of the Namibia Tourism Board (NTB) over time. It is forecasted for tourist arrivals to increase by 3.4% in 2020, however; due to the COVID-19 pandemic global outbreak, the foreign arrivals will be negatively affected. The total number of tourist arrivals was dominated by arrivals from Angola, South Africa and Zambia which accounted for 36.1%, 16.9% and 15.4% respectively. The figure from the European markets decreased by 16.4% as compared to 1.9% decrease in 2018. While African markets increased with 7.5% and other regions had increased by 5.6%. The Namibian tourism is well known for its big five wildlife, endless horizon and multiple cultures.

Figure 3: Tourist Arrivals by Year: 2014- 2019

Figure 4: Tourist Arrivals - Growth Rate: 2014 - 2019

Figure 5: Overseas Tourist Arrivals : 2014 - 2019

As from 2014 to 2017, Namibia observed a significant growth in the overseas tourist arrivals, from 2018 and 2019 the country start to observe a decline of 3.8% and 12.1% in the overseas tourist arrivals respectively. The 2019 figure might be attributed by the arrivals from the European markets which shows a decrease of 16.4% in 2019 as compared previous years.

NTB

TOP TEN TOURIST MARKETS

Figure 6 below, indicates the top ten tourist source markets of 2019. It is worth noting that the first six markets had managed to maintain their positions for the past five years. Angola provided the largest percentage, which accounted (35.3%) followed mainly by South Africa (17.3%), Zambia (14.9), Germany (6.1%), Zimbabwe (4.5%), Botswana (4.2%), France (1.8%), United Kingdom (1.7%), United State of America (1.6%) and China (1.2%). It is worth mentioning the appearance of China amongst the top ten tourist markets, replacing the Netherlands.

Figure 6: Top Ten Tourist Markets, 2019

TOURIST ARRIVALS BY REGION

Namibia draws the biggest percentage of tourist arrivals from SADC countries (Angola, South Africa, Zambia, Zimbabwe, Botswana), in 2019, the African and China markets have both seen growth in 2019. The Europe and North America observed a decrease in tourist arrivals. The decrease from the North America can be attributed to the fact when the Millennium Challenge Account (MCA-N) ended in 2014 and no new aggressive marketing effort continued for that specific market. The decrease recorded in the European market could be that the source markets had reached their peak that leave Namibia Tourism Board (NTB) to venture into new potential markets such as Asia and Middle Eastern countries.

Figure 7(a): Tourist Arrivals from African Markets, 2014 -2019

Figure 7(b): Tourist Arrivals from European Markets, 2014 -2019

Figure 7(c): Tourist Arrivals from North America, 2014 -2019

Figure 7(d): Tourist Arrivals from China, 2014 -2019

TOURIST ARRIVALS BY PURPOSE OF VISIT

This section represent the tourist arrivals by purpose of visit which is classified into four groups namely Visiting Friends/ Relatives (VFR), Holiday/ Recreation, Business, and Other Purposes which comprise travelers in transit and diplomats. Comparing 2018 to 2019 figure, there was a slight increase of 2.4% for those visiting friends and relatives, business at 2.8% , and other purposes recorded an increase of 38.0%. A 1.1% decrease was observed for Holiday tourists in 2019 .

Figure 8: Tourist Arrivals by Purpose of Visit, 2018-2019

Angola, South Africa, Germany and France are dominating the category of holiday travelers. While from overseas, Germany, France and United Kingdom dominate the overseas market travelers and for Business tourists, China, Germany and United Kingdom dominate this category. Out of the total tourist arrivals 14.4% were business travelers which is a good opportunity for Namibia to speed up the implementation of the international and regional convention centres as proposed in the National Sustainable Tourism Growth and Development Strategy (NSTGDS). Namibia needs to increase its marketing effort to grow the holiday and business niche given that the current high visiting friend and relatives niches is not a significant spender in terms of tourists spending. Angola surpass South Africa as the main African tourist to Namibia, it is recognized that these are travelers coming for retail and medical tourism.

Figure 10(b): Top Ten Overseas Business Tourists, 2019

NTB

INTENDED LENGTH OF STAY

In 2019, tourist prefers staying in Namibia for 4 to 7 days, this was the same day stayed recorded in 2018. This was less nights spent by travelers compared to 2016 - 2017, which was 8 to 14 days. African travelers spent on average 4 to 7 days compared to Europe and north American travelers that spent an average 8 to 14 days. This is due to the facts that African travelers mostly come to visit friends and relatives as compared to international travelers who come for leisure.

Figure 11: Average Intended Tourists Length of Stay, 2019

TOURISTS GENDER PROFILE

Gender distribution for 2019 follow the same pattern as that for 2018, with males tourists dominating for both regions, representing 60% while female tourists represent 40% of the total tourist arrivals. Moreover, the percentage of male travelers per regions are as follow; Africa 61.4%, Europe 54.5%, North America 52.1% and Others 60.3%. This could be because of Namibia is a destination for nature adventure and trophy hunting.

Figure 12(a): Gender Distribution of Tourists, 2019

Figure 12(b): Gender Distribution of Tourist by Regions, 2019

TOURISTS AGE PROFILE

The distribution of travelers by age groups shows that travelers within the age category 30-39 recorded the highest number of 418,701 accounting 26.2%, followed by age group 40-49 with 350,913 accounting for 22%. This pattern of age group distribution followed the same pattern as recorded in 2018.

Regionally the 30-39 age distribution shows that travelers from Africa mainly visits their friends and relatives, while the 60+ is dominated by travelers from Europe and North America mainly come for holiday.

Figure 13(a): Tourists Age Distribution, 2019

Figure 13 (b) : Tourists Age Distribution by Regions, 2019

TOURIST POINTS OF ENTRY

Namibia has more than thirty (30) point of entries, which can be accessed through air, road, sea and rail. In 2019, the Northern border and North-Eastern border posts recorded the highest entry of travelers amounting to 479,399 and 432,552 respectively, which are mostly used by Africans coming from neighboring countries via roads. Out of 1,595,973 tourists, 19.9% uses HKIA. The international (HKIA) observed the highest percentage of international travelers mainly from Europe and North America. It is clear that air connectivity remain the main driver for international tourist arrivals, although for 2019 HKIA and Eros airports recorded a decrease as compared to 2018.

Point of Entry	2018	2019	Change
HKIA	24.9%	19.9%	↓
Northern Border Post	24.7%	30.0%	↑
North East Border Post	30.8%	27.1%	↓
Trans-Kalahari Border Post	4.8%	5.2%	↑
Southern Border Post	11.5%	14.6%	↑
Eros Airport	0.1%	0.0%	↓
Other Airport	0.4%	2.1%	↑

Figure 14: Tourist Arrivals by Points of Entry, 2019

TOURISTS MODE OF TRAVEL

There are three significant modes of travel namely; road, air and sea. It is however observed that most tourists entered Namibia using roads accounting 54.1% (863,389). It is unsurprisingly to note that arrival by road is mainly by travelers from SADC countries. Moreover, air travel accounted 42.8% (683,551) of tourist, which is an increase as compared to 24.0% in 2018. Tourists who arrived by sea accounted for 2.4% amounting to 38,639, while other mode of transport recorded 10,394 representing 0.7%.

Figure 15(a): Tourists Mode of Travel, 2018 - 2019

Figure 15(b): Tourists Mode of Travel by Regions, 2019

TRAVEL BY AIRLINE

The South African Airways brought in more travelers 41.8% (285,997) in 2019 followed by Air Namibia 37.8% (258,187), and British Airways 5.5% (37,935). There is an interchange between the national airline (Air Namibia) and South African Airways as compared to 2018 in terms of carrying travelers into Namibia. Air Namibia brought in more travelers from Europe market, while South African Airways brought in more travelers from other markets. In contrast, in 2018 Air Namibia brought in more travelers from Africa and Europe. Since there is a significant growth in terms of air connectivity, it is of utmost importance for the Government to accelerate the upgrading of Hosea Kutako International Airport to make Namibia as one of the best connection hubs in SADC to boost tourism, as proposed in the National Sustainable Tourism Growth and Development Strategy (NSTGDS). There is significant decrease in all airline tourist arrivals at Hosea Kutako International Airport, except South African Airways.

Figure 16 : Tourist Arrivals by Airlines, 2019

TOURISTS SEASONALITY OF TRAVEL

Statistics uncovered that tourists preferred to travel to Namibia between September – December season in 2019 as depicted in figure 16 below. The overall tourist arrivals revealed a high observation recorded in August followed by October to December season while the lowest was recoded in January to March season. To avoid tourism being seasonal, the country need to diversify its products offering as well as invest in domestic tourism marketing. In addition, to consider identifying other potential markets.

Figure 17: Tourist Arrivals by Month, 2019

Figure 18: Tourist Arrivals by Quarters, 2019

CONCLUSION AND RECOMMENDATIONS

For the past years, the Namibian tourism sector has been receiving a significant increase of foreign arrivals and tourists, which in 2019 is demonstrated by 1.3% and 2.5%, however the industry continue facing challenges such as seasonality and air connectivity. African market continue to dominate the tourist category and accessing the country via road as preferred mode of transport.

The findings reveal that, it is advisable for the government to increase the budget allocation for Namibia Tourism Board (NTB), to enable it to make Namibia brand more visible on international marketing platforms targeting the European markets where most buying power travellers are coming from.

The results shows that more tourist come from Angola, hence there is a potential for Air Namibia to increase its flights to SADC countries, as most travellers from those countries often coming for medical reasons, shopping, and visiting friends and relatives.

Although the Country has recorded a slight increase in arrival, a big chunk is by those visiting friends and relatives which is mainly by travellers from SADC, it is thus imperative that the country changes its efforts to come up with tourism products targeting the SADC region in order to attract leisure tourists.

Also, the tourism industry need to revive and diversify its products offering to make Namibia as a first point of entry to the region as well as main destination, instead of being used as a transit or departure point. To avoid tourism being seasonal, the country need to diversify its products offering as well as invest in domestic tourism marketing. In addition, to consider identifying other potential markets that could travel when it is off peak.

There is a need to intensify the marketing strategy for Namibia Tourism Board (NTB) to ensure that Namibia is a preferred destination in sub-Sahara Africa. Namibia needs to strengthen the tourism development in terms of infrastructures (e.g. road, hotel, communication) to accommodate large number of tourists. Hence, it is a good opportunity for Namibia to speed up the implementation of the international and regional convention Centre's.

Considering the current situation as presented by COVID-19 the country especially the Namibia Tourism Board need to realign its marketing strategy to promote Namibia as a safe a destination during and post covid-19. The Namibian tourism industry should consider boost domestic tourism, to serve as a buffer against external shocks such as Covid pademics, Ebola and other force majeure.

The Government in collaboration with Namibia Airport Company (NAC) should consider accelerating the upgrading of Hosea Kutako International Airport (HKIA) to make Namibia as one of the best connection hubs in SADC to boost tourism, as proposed in the National Sustainable Tourism Growth and Development Strategy (NSTGDS).

As the HKIA is being upgraded it is necessary to also consider upgrading the computerized border system at the airport to ensure effective and efficient capturing of arrival and departure data.

NTB
