

OFFICE OF THE MANAGING DIRECTOR

25 March 2025

Dear client,

Update on Fuel Situation And Bookings for Halali

Firstly, allow me to apologise for the unfortunate operational shortfall at Halali and the lack of fuel at our camps. Unfortunately, the fuel situation has not been restored, and the challenge remains with our suppliers.

The power outage and water situation at Halali persist due to the prevailing force of nature, and CENORED is trying to restore the situation.

As for now, all booked-in clients will be accommodated at Okaukuejo and Namutoni until the situation is resolved. This is at no extra cost. All clients are thus requested to contact our reservations office for amendments on where they would like to be moved to.

Thank you for your patience and understanding in this matter.

Yours sincerely,

Mr Nelson Ashipala
Manager Corporate Communications, Online Media and MICE
