**MEDIA RELEASE**  
**(FOR IMMEDIATE RELEASE)**

**SUBJECT: RUNDU-DIVUNDU ROAD**

---

The Roads Authority (RA) hereby wishes to inform and caution the public that there are severe scattered potholes on the Rundu-Divundi road. We currently have Bitumen Maintenance Units that are repairing the damaged sections when the weather permits. The RA has also erected warning signs at critical places to alert motorists.

As a long-term strategy, this road will be rehabilitated to mitigate future damages during the rainy seasons. Should funds permit, rehabilitation will commence after the rainy season has ended.

The rain has caused widespread damage on our roads and the RA is working hard to repair potholes and other damages in the shortest time possible. Thus, we would like to appeal to all motorists to be alert at all times, especially at night. Motorists should refrain from traveling at night, if possible, during the rainy season as the potholes are covered by water and will cause serious damage to vehicles if motorists drive into them. Furthermore, motorists should exercise caution and reduce their speed according to the weather conditions.

Members of the public are, once again, requested to report any potholes/road damages at their nearest RA Office, send an email to [pr@ra.org.na](mailto:pr@ra.org.na) or via the RA Facebook page – Roads Authority Namibia
